

SILVER PALM RANCH -HOMESTEAD | HOMESTEAD,

Pictures 7/2024

Silver Palm Ranch is a One of a Kind hidden location in South Florida . It sits on 5 acres filled with lush and some very rare trees/plants. It has the perfect size horse stables along with a Chicken Coop and right across it has several Pig Pins.

The two story wooden home has a great open floor plan with extra high ceilings. The home owners are well seasoned and have made it much easier for bigger production vehicles to come in and out. It's entrance is settled back on a dead-end street with a charming wooden fence to greet you. Once you are in you are instantly hit with it's natural beauty. Lots of areas for different styled shots.

You do not feel at all that you are in Miami. It feels more like a western state.

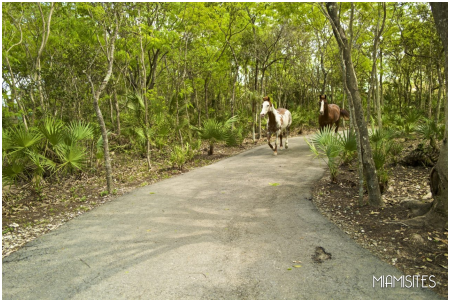

This Rare property invites all types of productions from stills to film to video.
