

## PALMLINE MODERN/MIAMI BEACH | MIAMI BEACH

This light-filled, single-story modern home offers clean architectural lines and a calm, editorial aesthetic that works beautifully across commercial, lifestyle, and narrative productions. The white stucco exterior and palm-lined approach create a polished first impression, while the interiors feature a neutral palette, light wood floors, and thoughtfully styled spaces that feel modern yet warm.

Inside, large windows and soft sheer curtains bring in abundant natural light, creating camera-ready rooms with easy sightlines and flexible shooting angles. From the serene living area to the boutique-style primary bedroom, each space is uncluttered, production-friendly, and designed to adapt seamlessly to a wide range of brands—from fashion and beauty to home, wellness, and luxury lifestyle.
