

WINTER MUSEUM

WINTER MUSEUM(DOWNTOWN MIAMI – MUSEUM PARK / BISCAYNE BAY)

Space Specs (Production-Friendly Overview)

Total Facility Size:

Approx. **250,000 sq ft** (multi-building museum campus)

Outdoor Spaces:

- Open-air **bayfront plaza** within Museum Park
- Exterior terraces and walkways adjacent to Biscayne Bay
- Direct proximity to water views and skyline backdrops
- Suitable for **outdoor activations, arrivals, staging zones, and brand moments**

Interior Spaces:

- Multiple large-scale **open galleries** across several levels
- Dramatic **central atrium spaces** with strong vertical volume
- Modern architectural interiors with glass and concrete finishes
- Flexible layouts depending on exhibitions and installations

Ceiling Heights:

- Vary by gallery and atrium

- Significant vertical clearance in main public and circulation spaces

Load-In / Access:

- Professional back-of-house access
- Freight elevators and service corridors available
- Load-in logistics coordinated with venue operations

Capacity:

- Varies by space and configuration
- Capable of supporting **large events, fashion presentations, branded activations, and film/photo productions** with approved layouts

Production Notes (Client-Safe Language)

- Structured permitting and venue coordination required
- Insurance, security, staffing, and venue guidelines apply
- Availability subject to programming and public hours
- Well suited for **modern, experiential, tech-forward, and editorial productions**
